New skincare products

We are excited to introduce our new skin care line Shankara. Shankara skin care embodies East–West concepts melding active organic blends of herbs and oils from India and western herbalism, selectively created for each product. In a proprietary process, botanical extracts validated by clinical studies for skin effectiveness are fused into the restoring herb and oil bases. Unique aromatherapeutic 100% organic essential oil blends of both eastern and western origin enhance each product.

Shankara products are based in Ayurveda. The rejuvenating and balancing herbs of Amla, Ashwagandha, Brahmi, and Neem provide the cornerstone of all formulas. Knowledge of the youthening effects and therapeutic uses of herbs and oils to bring balance to the body, mind, and spirit, has been effectively practiced in India for 5,000 years.

Today, science has identified phyto-elements in traditionally used plants that demonstrate numerous benefits for renewing and balancing skin.

Active botanicals in Shankara products contain effective levels of antioxidant, regenerating, anti-inflammatory, and moisturizing phyto-elements that include: anthocyanidins, phenols, catechins, alkaloids, glycosides, polymucosacharides, lignans, sterols, fatty acids, amino acids, minerals, carotenoids, retinoic acid, vitamins A, C, E, and B – keys to radiant, youthful skin.

We chose this product line because of the well crafted formulations, the quality of the ingredients, the phenomenal results people experience, and because of the integrity of the company. Shankara donates 100% of their profits to humanitarian organizations and are committed to the same principles of peace and awareness that The Dragontree supports.

We hope that you get a chance to experience the amazing results of these products yourself.
